

Why perform clinical trials in Nordics & Baltics

BENEFITS OF NORDICS

High integrity value

- Nordic countries are known for high integrity value replicated at every steps in the trial

Positive environment for innovations

- Sweden, Denmark and Finland are leading innovation with performance well above the average
- Leading universities with large network of key opinion leaders

BENEFITS OF NORDICS

Danish Unique Biobank data

- A goldmine for medical research
- **Denmark Focus: Trial Nation** offers a single, national entry point for life science companies, patient organizations and clinical researchers.

Denmark Clinical Lead

- Denmark is the country with the highest number of clinical trials within EU

BENEFITS OF BALTICS

Patients

- A considerably larger pool of treatment-naïve subjects
- Access to newest treatment (otherwise no available) favors high recruitment and retention rates

BENEFITS OF BALTICS

Investigators / KOLs

- Highly motivated, experienced and GCP trained investigators and study site personnel
- Lower number of clinical trials
- Small number of centralized hospitals to cover the whole population

Based in Southern Sweden

“

I have had the pleasure of working with members of the Nordic and Baltic team for years, providing top services to our customers. The team is comprised of highly experienced, high-level professionals in their respective fields, meaning we can always count on them providing prompt and high-quality service, even in the currently changing clinical trials environment.

”

**Stiina Vuorio**

Senior Clinical Operations Director
